

“RENEWING THE HEART OF THE CHURCH THROUGH EUCHARISTIC PRAISE & WORSHIP”

VISION:

Christ Music is a registered 501(c)3 non-profit apostolate dedicated to the New Evangelization called for by Pope John II for the new millennium. Our primary vision is to renew the heart of the church through Eucharistic praise & worship; promoting devotion to the Blessed Sacrament by organizing and sustaining the practice of praise & worship adoration services throughout the United States and the universal Church.

Christ Music’s ideological foundation is the notion that each of us is called to embrace a personal relationship with Christ. That is the driving force behind our very existence. Every saint and mystic throughout Christianity has sought that intimate communion for which we were created. With this in mind, our goal at Christ Music is to sing the love songs of this marriage, to put into words of praise the conversation between Christ the Bridegroom and His Bride the Church. We feel that this practice will enable real prayer, drawing the singer or listener into that conversation where *metanoia*; true conversion begins.

Caelorum is a Latin word which, roughly translated, means “of heaven”. We chose this word to describe the praise & worship adoration service because of our heavenly destiny of praising God ceaselessly with the whole company of angels and saints. At each *Caelorum* service, we desire to unite our worship with theirs, seeking with our voices and instruments to echo the eternal song of all creation.
